Home / Games / SimCity BuildIt SimCity BuildIt MOD APK is a free city simulation game for Android. It is a famous game from EA's SimCity series. You can download the original APK file and the MOD versions of this game via the links we have included under the article. Summary Introduces About SimCity BuildIt SimCity Build This is a simulation game from the Electronic Arts Publisher, a familiar name if you play often on mobile devices. They are famous for the Plants vs Zombies game series and some sports games like Real Racing 3. This is the first time EA has tried with a simulation game. And the effect of this game is amazing. To date, the game has reached more than 50 million installations on Google Play with many 5-star reviews. Gameplay The SimCity series, launched in the late 1980s, has been the best friend of many generations of gamers and has made giant strides since then. This latest version looks brighter and sharper from the start, and when you look closer, you'll see unexpected details. The basic principles of SimCity remain the same. However, the view from above and the square shapes of the old days have changed, becoming a three-dimensional world that can be built. Soon, the preoccupation that takes over will be to meet class needs rather than essential needs. Sooner or later, you'll have a donut shop. Then you will think of shopping malls and casinos. Give priority to shaping the city to your liking, such as building seaside resorts or designing in Parisian style. Grow your city If you're not too busy keeping the city running, just stop and watch the simulation process to make you happy. When you use two fingers for the room in a sports stadium, you will see the little players playing make a direct score in baseball, as well as score on the football field. You'll like it, you will. The landscape or listen to the vibrant city noises with happy residents living there. What a perfect result for your efforts, right? Meanwhile, industrial parks are not just places for sims to work. Together with your stores, these industrial areas will produce the materials for you to update your existing plots. At the beginning, your property may seem a bit modest at first or more similar to SimTown or SimVillage. However, when you see changes in a developing city, you will know what to do next. Yet some people just want to see the world in flames and I have to confess that it is also exciting. When you build a big city, you can ask Dr. Vu to help you devastate the city with many types of disasters, from meteorite to alien invasion. Destroying is easier than building. Also, you will receive prizes for your efforts to rebuild your city. Collect and Commerce Resources hope build a city, resources are extremely important. You can't build a building without resources. However, you can find and buy resources from other players. Sometimes, some players need your resources, and even their resources. An exchange has been carried out which has helped both parties. The exchange and exchange of resources also help you earn a decent income. Currencies SimCity BuildIt has several currencies: SIMOLEONS: You can get Simoleons by improving buildings, exchanging resources, selling articles. Alternatively, Simcash can be used to buy SIMOLEONS. SIMCASH: high-class currency. Simcash helps you buy and update your works immediately instead of waiting. You can have simcash just buying in cash. You also have the opportunity to get a bit of simcash after completing some achievements, but it is negligible. Clave You can get the golden key by completing the shipment or passing the challenges of catastrophe. platinum key: you can only request the platinum key through Mayor 226; 128; s contest. You can't be purchased purchased SimCash. Graphics There is no doubt about the graphic quality of the game EA's. SimCity BuildIt simulates a virtual city with detailed and crisp 3D graphics. With the view from above, you can observe all the activities in your city. You can zoom in and see your happy residents are living. Your city is well designed with sharp images and bright colors. In addition, the game also has day/night effects and the weather changes from season to season. All of the above gives you the best experience.
