Del 1 Al 20 Number English Spanish 1 and 2 two 3 three 4 4 5 5 5 5 six 7 7 8 8 9 nine 10 10 Diez 11 ounce 12 sweet 13 thirteen 14 Catorce 150 150 fifteen 16 sixteen 1718 eighteen 19 nineteen 2 Veinte Del 1 Al 100 Number English Spanish 1 and 2 both 3 three 4 4 5 5 5 Six 7 Seven 8 eight 9 nine 10 10 Diez 11 Once 12 Sweet 13 Thirteen 14 Catorce 15 16115 Diocese 18 Nineteen 19 20 Veinte 21 Twenty twenty 22 twenty two 23 23 twenty three 24 twenty four 25 twenty twenty 26 twenty six 27 27 twenty seven 26 twenty eight 29 twenty nine 30 thirty four thirty 31 thirty 32 3 3 6 thirty thirty thirty 32 38 thirty eight eight 39 thirty nine 40 quarter 41 forty one 42 forty two 43 forty three 44 forty four 45 forty five 46 forty six 47 forty seven 48 eight 409 nine 51 fifty gender seven 58 five twenty eight 59 616 finyne -one 62 sixty two 63 sixty three 64 sixty four 65 sixty five 66 sixty six 67 sixty seven 68 sixty 69 sixty sixty 70 seventy 75 seventy 77 seventy seven 78 seventy eight 79 seventy nine 80 eighty 81 eighty one 82 eighty 82 eighty three 83 eighty three 885 eighty -87 eighty seven 88 eighty 80 nine94 ninety -Four 95 ninety four 96 ninety five 96 ninety -six 97 ninety -seven 98 ninety -99 ninety -Eight 99 ninety -nine 100 set del 1 al 1000 PDF format ready with all in English in English from 1 to 1000 and 1000 download its Spanish translation. Click here to download the PDF file. Cardinal numbers will teach you the format in cardinal number format: Number - number in letters - pronunciation. What are the main characters in English? It is thanks to them that we can perform surgery: put together, take, share ... Let's start with the first two dozen. These numbers are the most important and you should understand them very well. English pronunciation number 1 Hey 2 You 3 Zrri 4 fooar 5 faiv 6 six 7 seven 8 it 9 nain 10h 11 wear 12 fat after 12 numbers After 12 numbers, the spelling scheme is as follows: ending with "teenagers". And they have the format (number + teenager) with some exceptions like 13, 15 and 18. Number in English with "you". For example, the number twenty in English is twenty. They keep the same previous format (number + you) with one exception. In this group, enter 20, 30, 40, 50 and 80 as shown below. English pronunciation number 20 Tuenti 30 Zerti 40 Forti 50 Fifti 60 Sixty 70 Severy 80 EniIII 90 Nainti To enter other numbers, follow the format (round number + single digit). The English number pronounces 22 two 34 Zerti Foar 58 Fift 6it 67 Sixty-Seven 75 seventy-seven phanty-six 93 Nainti ZRII carefully study the above numbers to take the next step. It will be a similar model, although it is obvious with its variants. The main idea is that you make combinations using the term one hundredth, which suggests "hundreds" or "hundreds". For example: The English number is pronounced 100 uan hundred 200 du 300 t 300 t zrii hundred 400 foar hundred 500 pHaived 600 six hundred 700 seven hydrinchi 800 Handball Using the combination of "and" to specify other numbers: English pronunciation 101 uan hand 125 hundred twenty-five uan hundred ean tunti fanting 555 five hundred fifty five five five hands ean fifa papivi 973 nine hundred and seventy three nain hundred ean seven zri then comes the remaining units which are almost completeLook alike. The most important are thousands() and millions(). Find out a way to write some of those numbers. Number in English pronunciation 1000 one zausand 1100 uan zausand uan 2756 two thousand seven hundred fifty-Six you zone seven ean finy ean Fifts six six 724 658 SevenceEntoveTyque one thousand six hundred fifty-five seven seven seven friend in the last example we have first published "Seventeenth century". And then we put the word "thousand" for thousand". English language unit 1,000,000 one million million 1,100,000 one million one hundred thousand one million Hão Hpes Hope Zausand 9,030,100 39 million one hundred million zèrti zausand händred 70,060,023 Sevy million six thousand zausand händred 70,060,023 Sevante Sev. With this you can start with the study numbers in English, apparently a little more, but this is enough for you to gradually begin to understand them. The procedure numbers, unlike to the preceding, are used to indicate the position of the for for Example, the element in competitions is easier to learn Note that the first 3 out of ten numbers, except those ending in ST (1), ND (2) and RD (3), while the others end with the first second third third third Quarter Quarter Fifth Fifth Six 6 Septimo 7 eight 7 Ninth 9 9 9 10 Numerical pronunciation in English The next step in learning English after you know how it is written, you know how to say or pronounce it. We have prepared a table with some English numbers and pronunciation, put me TCTI to the test and you'll see how very British it looks. Since this is just a stack of numbers, we also recorded a video of the numbers spoken by the native speaker with perfect accent. With this you will get two things: listen to the natural accent of England and try to imitate the pronunciation: the numbers in English are undeniable that teaching English is not a task that we consider easy. It's complicated because the teacher or trainer must know how to understand children in order for their methods to produce convincing results. That means it's not just a lessonSmall or larger children, but also that certain techniques must be used to attract the attention of the child in order to teach him English. The best way to teach English to children is to show them this new language in the form of a game, that is to say to always try to have fun with the boys. In this way, they will not have trouble being attentive, but it will be the opposite because they want to play a lot to learn the figures in English. The child needs to feel attracted to this atmosphere and to feel that everything around him is in English so that he feels much better. To make children learn the figures, I will tell you that you have many games, songs and many methods. In fact, the ideal is that you teach them the numbers of 1 to 10, as they grow and adapt, you can increase the number of numbers that children learn. In this way, children can easily learn figures in English and be sure that the results of their learning will be very visible. There are many ways to teach children and the truth is that many of them are the responsibility of the teacher. We leave them here, the most we have been able to find: English for children through the movies the more children are young, the more correct it is to teach them English, but we can be sure that it is also more difficult because children have difficulty should keep their attention. Something they learn requires really special techniques to keep them concentrated and entertained, otherwise I think it will be very difficult to keep their attention and give children a chance to learn. We want to focus in particular on the subject of the figures learning, because each time you have to teach English to a child, you must start with the basics, so vowels, alphabet and figures, you do not Can't start teaching grammar to a child, you have to do it yourself do it step by step. For children, learning must be fully interactive and this can be achieved thanks to the use of videos because, as you know, children love watching television, especially when it comes to cartoons. We recommend that you download cartoons from cartoons with songs that express figures, the boy will think that he will watch a television show and you will immediately draw his attention. THEThere is no doubt that these films will help the child easier to learn English without pronunciation and sounds, and we are talking about one of the best techniques that are worth considering, because using such videos today has become important to learn English. Speech, especially for young children. English has been written and spoken differently for many years. There are not many complications, just an individual question. Over the years, the type of writing also varies depending on the extent to which they are, as well as some qualities. There are three ranges: 1 to 999, from 1000 to 1999 and from 2000. Del 1 Al 999 This three -digit year, one of the characters, and the other can be divided by two numbers, for example: 738 Spanish means "seven thirty -eight". You also have a different type of record that is the same as above. The English 738 years seven hundred thirty -eighth are significant. First, enter the first digit number and then a combination of the other two digits. The second option preserves the full number. Note the following examples: English Year 22,500 Five Century 200 Two Centuries 889 Eighth Eighth One Eight Hundred and Eight Eight eight 999 Nine Henth Nine hundred Nine Nine Nine Nine Nine O 607 OI Seven 703 Seven Seven OI Three Seven Examples The first 3 year examples of 1 to 99 cannot be divided number . If a century, it is not possible either. In this case, it is assumed that there are hundreds of centuries of words. Now pay attention to the last two examples, remember that "zero" is "oi". If you want to apply for 0 years, you need to do so. It is wrong to write the following examples: The English Year 607 703 Del 1000 Al 1999 can be divided into equal parts consisting of 4 digits and written as follows. For example: English Year 1001 1324 1777 1980 There are exceptions, this time at the end of two zeros (0), for example, the English year 1200 1700 1900 The first two digits are written as 10-19 and two zeros. (0) denoted by the word "face". The first 9 years of 2000 were written as we doThey are in a quantitative issue: Year in English 2000 2005 2009 From now on, they can be written when we divide them into two parts or as a natural number. Year in English 2010 Twenty -DVA 2014 T Twenty -Four 2020 2020. Decimal Number in English, decimal characters in English a little if you carefully study this management. In English, commas (.) are not used to record decimal characters, but to indicate points (.). You always have to write the whole game (if so), then insert the "point" and finally write each number for the second time. Decimal numbers in English 0.5 1.3 3.141592 three points one four nine, two 15.73 fifteen to seven three whole fractions in English before fractions start. The numbers are recorded by quantitative numbers and orders are ordered. If the upper part of the fraction is greater than 1, the lower part is plural. And if in the denominator 2 ", if there is 1 in the numerator and if it is older. Write in English or pronounce interest in English, you must add the word "percent" at the end of the number. Previous percent in English 0.05% zero zero zero five percent 1.7% 5.4% 25% 300% of money in English talking about money in English "point" is and "then the name of this money in English £ £ 20 £ 3, 99 three dollars and ninety hundred hundred sentences with I have two sons in English in English in Spanish, of which I have ten in Sofia mathematics, more than £ 23 have more than £ 23 of one of them, and fifty athletes participated in fifty athletes who participated in the factory, produced more than Five million soaps, the factory produces more than five million soaps per seveny -three cow farm on the seventy cow farm. The car costs ten thousand five hundred euros. The car is worth five hundred euros. I saw the film seven timesHe was in Brazil, my son was born in one thousand and ninety, my son was born in one thousand and ninety - Android, my smartphone has Android version eight point zero, the third is zero three ... The third is the third Zero three three three three three ... The answer was: two fifths Answers: Two fifths commission is ten percent, this month is ten percent. Interest, I owe five dollars, it cost one euro and seventy cents is one euro and seventy oxides
