Double Digits!  
Practice Vertical Addition with Regrouping  
15  
With its two-digit addition problems and healthy dose of carrying, this second grade worksheet offers a worthy challenge to aspiring young mathematicians. Welcome to our 2 Digit Addition Worksheets page. Take a look at our double digit addition worksheets to help your child learn and practice their addition skills with regrouping. Looking for two digit addition worksheets without regrouping? Use the link below  
2 Digit Addition without regrouping  
Here are our range of two-digit Addition Worksheets with regrouping set out in columns. Using these sheets will help your child to: use column addition to add up two 2-digit numbers together where regrouping of Ones into a Ten is needed; use column addition to add up two 2-digit numbers together where regrouping of Tens into a Hundred is needed; set out a 2 digit column addition; The sheets have been split into sections so you can easily select the right level of difficulty. Section 1 has regrouping of ones into a ten; Section 2 has mixed 2 digit addition with and without regrouping within 100; Section 3 has regrouping of tens into a hundred; Section 4 has regrouping of both ones into a ten and also tens into a hundred. Note: In First Grade, you only need to worry about Sections 1) and 2) looking at 2 digit addition within 100. You do not need to look at regrouping the Tens in to a Hundred. Take a look at some more of our worksheets similar to these. If you are looking for some two-digit addition worksheets without regrouping, use the link below.

Welcome to our 2 Digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade)  
2-digit x 2-digit multiplication (4th grade)  
Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. More Double digit Multiplication Worksheets (harder)  
Take a look at some more of our worksheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily?
