Right now I'm not sure if I should buy Reavers, because I waited and checked the store every day, and today I will find out that the new price is 7100 VP - approximate price: Forsaken vandal == 1775 VPI needs your advice as soon as possible 4-6 hours I lost Reavers from stores and who knows when they will appear next time? !! This skin can be purchased in the game during the rotation of the store. The rejected vandal is sold separately for 1775 courage or as part of a set of pursuit of 7100 courage. This skin can be improved. There are different levels that change the appearance of skins, each level costs 15 radian to unlock. You can see various options below. Visit our weapon page to find out the whole history of weapons and the characteristics that you need to know as a weapon of vandals. Vandal Head with one touch is the first selection of many Valorant players. Vandales skins in Valorant can make your tricks much more pleasant. Phantom is a great choice for small cards, especially in the hands of a jack. But killing phantoms is not as pleasant as killing vandals. Unique strokes for some skins cost every penny, because they make the game even better. Riot has released more than 30 sets that fall into all categories. It can be difficult for players to find the best skin in the invited inventory, so we have collected all the skins of vandals Valorant in one place. All Vandalen exclusive skins for Valorant are all in the Exclusive family five Vandalen skins. AllIt includes valor levels and some of the most expensive packages. In this category, all cosmetics of limited release are available from 1775 to 2675 points of valor for weapons. Champions Vandal 2021 The most special vandal is the last sacred bowl in Valorants, because it is rare. In 2021, Riot celebrated the VCT event, which crowned the first world valor champions, presenting a limited number of knives and anti-vandal backpacks. He does not return to the store, which makes him look at the heaviest gross. Price: 2675 valor points. Glite-pop is the most popular type of valor covered with funny stickers and drawings in the style of cyberpunk. A colorful vandal colorizes the sky with a horse-skinned spray as an animation of the murder. There are three options with clicking sound elements and excellent animation. Price: 2175 valor. The futuristic mixture of prelude to chaos and chaos includes city lights in attractive color scheme and rotating disco lights. Sound effects should also be affected, which give the appearance of a slightly exaggerated Vandal weapon. Its green, white and blue options are available with their own visual effects and the last processor. Price: 2175VP. RGX 11Z Pro at first RGX 11Z Pro was not well accepted by Valor fans. However, those who chose it for a tour realized that he brought a new sound. RGX 11Z Pro kills thanks to a small screen on a geometric case. With three color types, this costs a special price. Price: 2175 Zp. Sentinels of Light Sentinels of Light, popular Moba Valorana, League of Legends, Riot were the first aisle product. It was a salute to the guards of the world, and he was sent aboard the "destruction" as a competitor, emphasizing the dark side. Crystal Body Vandal continues to be popular among fans due to its options, private visual effects and the last processor. Price: 2175 Zp. All types of Vandal Premium Vaient have nine vandals in the premium family, almost all of them are very popular in Valant. This level is ideal for gamers who value good sound, but will cope with more detailed animation. Premium views usually cost 1775 VP. The selfish black and white vandal adds little to the total color scheme of the butt. Nevertheless, undeniably cult species is especially a brutal and dense red version. He brings a geometric patternIt gives the usual vandals that premium look. Price: 1775 gold. Abandoned wild tempera is a creative fusion of the Sovereign and Reaver collections. Silver accents on the dark green case are accentuated by a giant crystal in the centre. The gun accepts the thief's whirlwinds and the glorious sense of the Lord. Forsaken is offered in only two color options and dark decoration. Price: 1775 gold. The boughs of gay men embracing the crystal of Gaia salmon sets this captivating volume apart from other stout designs. Traditional, immersive and thematic. Gaia's revenge violated the monotony of the ideas of the futuristic skin that rebellion used in valiant. This unique weapon comes with an equally attractive skinner who planted a giant tree on the map. Price: 1775 gold. Who doesn't love tiny fish swimming in the aquarium Neptune? That's exactly what Riot did with the Neptune collection. Neptune Vandal is a nautical theme with a soothing colorful aquarium built into Body of Arms. However, players need to unlock levels to see this premium feature. Price: 1775 gold. The original Cylindrical skins had dark and dull color schemes, but the unique animation was great. In the middle of Origin Vandal are golden discs that separate and spin when you look at them. The black gun remains the most popular due to its attractive sound effect. Price: 1775 gold. Prime the Prime Vandal is the most successful stalwart shotgun skin to date. The elegant gold and silver pistol has animation with low electrical noise when firing, which makes shooting a more pleasant mouse click. It looks lightweight that many gamers are looking for a bold in their skin. Price: 1775 gold. Connecting globes, this vandal's glass case contains a picturesque display of demolished buildings that change depending on the environment. It's not the most popular vandal look, but it has its fans. There are no special effects or animations in the connected realms. Price: 1775 gold. Reaver requires some valiant Vandal Skins, and Reaver is definitely on that list. The weapon's heavy sonic element and attractive face design have helped make it one of the most popular valor skins. There are three options and white might be the best. Price: 1775 gold. value ahead! 2 valiant strikers! This is 2 - one of the most minimalist and not very bright skins. Despite this, players are quickly picking up this skin from the store because it depicts an agent.Vandal, the Phoenix-themed vandal, doesn't have a distracting animation, but it looks wild in a two-year-old add. They are cheaper with 1,275 VP per skin. Most exterior skins in the deluxe layer have lightly outlined translucent outer surfaces for a panoramic glass appearance. Aristocrat Deluxe isn't exactly at the sleekest skin level, but Aristocrat looks amazing. The gold and black upholstery is topped with real-world floors that make it look like a first-class appearance with a first-class origin. Aristocrat for a cheap luxury label is a game for players trying to save money. Price: 1275 Rp. The ice-themed gun is simple yet attractive. The leather shines in the sun and shows every little cut and edge in the Vandel statue. They don't have any animations or special effects, but they still sell well. Price: 1275 Rp. Horizon Green Skin Horizon has a Watteston sugar sky that will color your inventory without breaking your bank. Even if there are no special effects, the horizon is still beautiful at a low price. Peaceful waits can help soothe the nerves during sweat matches. Price: 1275 Rp. Olvidos was one of many appearances of a few skin mirrors that they sold immediately after being released. Probably because it's hard, a vision of Reyna's cultural roots and past. The live package also came with a variant that moved the scene while moving. Price: 1275 Rp. Sakura Sakura was the only deluxe level package that appeared twice in the primary market. Sakura's elegant pink and white vandal is clear and does not strain your eyes. It does not contain heavy carvings and designs that many of them may find distracting and driving. Price: 1275 Rp. The body of Silvanus Silvanus Vandal is undoubtedly the selling point of the midnight skin. Small huts illuminated with golden lights are relaxed and aesthetically pleasing. Silvanus is an economical aspect and comes without variants. Price: 1275 Rp. The AOE-themed skins have many values, but very few are similar to Team Ace. Simple and minimal, but still a statement, this leather look, Vandal and Reyna'mn of each skin present art. Viola Gray Vandal has no exaggerated artistry or effect, butMandatory equipment for all Reyna players. Price: 1275 PV. Titanmail Titanmail is a cheaper version of Reaver and Forsaken models. The rough textures of this vandal are rare, rarely found in the daily rotation of the market. This is undoubtedly one of the most underestimated skins of the vandal and is very desirable. Price: 1 275 ZP. Wasteland Wasteland is a unique vandal with random patches and objects connecting the body. The skin gives the battle a overwhelmed look, decorated with broken details, buttons and screws. Perfect for fast, competitive Valorant games. project. The glass housing shows a scene from winter morning in a snowy village. Price: 1275 PV. Of all Vandal Skins Select Select, the lowest and cheapest layer of skin is Valorant. Blue circle skins are available and often look the same. They may be inflexible, but still give your inventory a bit of flair. Players often buy these less used weapons sheaths to complement their collections. The leather of selected vandals costs 875 VP and currently contains four ENTEVOUours of this level. This simple white and gold leather is the best choice among minimalists. Endeavour Vandal is a bold piece that gives you an additional value to your inventory and is not too bright. The simple design of blue nuts and bolts attracts the eye, so Endeavour is one of the best selected skins. This is a great choice for those who avoid spending money on virtual items, but still want to enjoy Valorant Skins. ; Gradient skin secretes it, lighting orange on pink body control and movement. It looks great in secret and perfect with agents such as yoru, kay/o and meant. Price: 875 PV. Sensation Sensation is characterized by lush bubble wrinkles throughout the body. This inexpensive Vandal also has a Blastx package that can become attractive to many. It is undoubtedly valuable in itself due to the prices of a bright color and an optimistic aura: 875 PV And the "show" is the most expensive vandala "Valorant". In particular, the editorial staff is very enthusiastic full of vandal skin returning to the normal skin market. Highlighted dragon scales and fire animation are one of the many attractive features of this rare skin. The sound effects and unique sensations of Elderflame Vandal remain unmatched even with many similarly sophisticated skins. It costs 2475 VP for three options and animation, making it one of the best games. Another Valorant Vandal Skin is Vandal Leather Valorante, which players can buy in the market. However, there are some other vandal skins that can only be obtained with Battle Pass. This skin will no longer appear on the market, and now only those who play the corresponding combat version in Valorant.
