To help you better understand the income thresholds and government assistance available, we rounded some atosis tips and resources for those skilled as low-income. We will go through different available government programs and tips to save and get out of date. Let's start and see if your income qualifies for some of the great available resources. Courtesy of the photo: Juanmonino / Getty Images In the United States, Census Bureau defines low income as a family whose income level has no more than 150% of the National Poverty Level. By 2020, for example, a subject that makes less than \$ 12,760 is considered low income. A household of two people less than \$ 17,240, and a three-person house earning less than \$ 21,720 qualify as low income. For a family of four people, you need to earn less than \$ 26,200 to fall under the low-income threshold.
