Subordinate Clauses

The good news is to make a subordinate sentence.

Subordinate clauses are smaller. They change a simple sentence into a complex one. You need to include a subordinate clause to give writing the effect of more sophisticated.

A subordinate clause simply adds extra information into a sentence. It can go at the beginning or end of a sentence and is introduced by a comma.

Simple sentence: Cats searched for the rabbit.
Main clause

Complex sentence: Cats searched for the rabbit **because** they were hungry.
Main clause Subordinate clause (at the beginning)

Complex sentence: Cats searched for the rabbit, **because** they were hungry.
Main clause Subordinate clause (at the end)

Embedded Clauses

Embedded means 'within'.

An embedded clause is another way of using a subordinate clause - by dropping it into the middle of a sentence. This time you need two commas, one at either side of the clause.

Complex sentence: Cats searched for the rabbit, **because** they were hungry, **because** they were thirsty.
Main clause Embedded clause (in the middle)

Complex sentence: Cats searched for the rabbit, **because** they were hungry, **because** they were thirsty, **because** they were bored.
Main clause Embedded clause (in the middle)
